Research Interests

My research focuses on computer security & privacy behaviors on the Internet. In particular, I am interested in issues of online abuse (e.g., hate and harassment, mis/disinformation, digital safety). My current research focuses on measuring abusive behaviors online and designing tools to help Internet users protect themselves from unwanted abusive behavior.

Education and Training

Postdoctoral researcher, Stanford University, 2020—2023. Building tools to measure and mitigate the effects of online abuse.
